

Post, GO & Facilities Support

To help with your flow of paper documents Kings can supply you with Post, General Office and facilities staff to help control your time critical deliveries around the building, in the local area and if necessary drivers who can deliver on your behalf.

You may need staff to run your courier desk where they will organise local, national, and international logistics for you to ensure the stream of packages and parcels are sent and dispatched on time.

It goes without saying that they will need to be at the top of their game with customer care and problem solving. They will need to be able to work in fast paced areas where deadlines are met regardless of timescales, and the answer is always yes.

Kings currently supply many of their clients with facilities staff that have skills within maintenance and building support from Handy Men to Managers, looking after the maintenance of large buildings and large contracts and suppliers.

Wherever our help is needed Kings offer one complete solution for all your Facilities requirements. We are able to supply you with staff both temp and perm in all of the areas above. Due to the nature of the roles we understand how time critical they can be, and at times how urgently you need a person supplied to you so the next time you need that special person why not give us a call on the number below.

020 8303 2525 to discuss your temp and perm requirements.
